FULL-STACK DEVELOPER

An aspiring Full-Stack developer, currently studying at n! and obtaining a Bachelor's degree in Computer Science at KBTU. While learning a strong foundation in front-end and back-end technologies, including knowledge of HTML, CSS, JavaScript, React, Node.js, and SQL. Driven by a passion for building dynamic and scalable web applications, strong problem-solving skills, and hands-on experience in collaborative projects. I strive to contribute to a forward-thinking team where I can apply my technical skills and continue to grow professionally.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Science

Kazakh-British Technical University, Almaty

Sep 2023 - Current

Currently pursuing a Bachelor of Computer Science degree at KBTU, a prestigious institution renowned for its rigorous academic curriculum and emphasis on practical skills in technology and engineering. The program offers a comprehensive foundation in computer science, covering key areas such as software development, algorithms, data structures, and computer systems.

Key Highlights:

- Developing proficiency in programming languages, including Python, JavaScript, C++
- Engaging in hands-on projects, demonstrating strong problem-solving and research skills.
- Participating in collaborative team projects, honing communication and teamwork abilities.

Full-stack developer course

n!

October 2024-Current

Currently enrolled in an intensive Full-Stack Development Bootcamp at n!, designed to equip students with the skills necessary to build and deploy full-stack web applications. The program focuses on both front-end and back-end development, providing a comprehensive understanding of modern web technologies and best practices.

Key Highlights:

Front-End Development:

- HTML, CSS, and JavaScript.
- React
- Learning responsive design techniques to ensure applications are mobile-friendly.

Version Control and Collaboration:

- Git
- Participating in team projects to simulate real-world software development environments.
